

### ***Meet Lindsey***

Lindsey Nelson has a strong academic foundation and extensive clinical training in Communication Sciences and Disorders, she has built a career dedicated to helping individuals improve their communication, voice, and swallowing abilities. She earned her Master of Science in Education with a focus in Communication Sciences and Disorders from Valdosta State University in December 2011, following a Bachelor of Science in Education in the same field from Valdosta State University in May 2010. During her undergraduate studies, she was honored on the Dean's List in 2009 and 2010, reflecting her commitment to academic excellence. Her educational journey began at Gordon College in Barnesville, Georgia, where she completed foundational coursework in core content and general studies in May 2008.

She holds has a Speech-Language Pathology license through the State of Georgia State Board of Examiners for Speech Pathology & Audiology and maintains the Certificate of Clinical Competence (CCC-SLP), demonstrating her adherence to the highest professional standards in the field. Her clinical expertise is further supported by specialized certifications, including BLS-HCP, Head and Neck Patterned Electrical Neuromuscular Stimulation (PENS) through ACP-A Hanger Company, and Lee Silverman Voice Treatment (LSVT), enabling her to provide evidence-based, targeted interventions for a wide range of communication and swallowing disorders.

Driven by a passion for patient-centered care, she continues to expand her clinical skills and knowledge to support individuals across diverse settings and stages of life. Her work is grounded in compassion, clinical excellence, and a commitment to empowering others through improved communication.
